Josh is the premiere voice control experience for luxury homes.

Enjoy elegant and intuitive control over every connected device in your home like never before.

At Josh, we believe voice control should feel natural for homeowners and their guests. Josh is professionally built and customized specifically for your needs.

A modern bathroom with large, light-colored marble tiles on the walls and floor. In the foreground, a white freestanding bathtub is partially visible on the left. A small, round wooden table with a white mug and a book sits in the center. To the right, a white pedestal sink is mounted against the wall. Above the sink, a rectangular mirror is mounted. A small, round, white smart home device with a colorful ring is mounted on the wall between the two mirrors. A pendant light with a woven, basket-like shade hangs from the ceiling. On the far left, a window with white blinds is partially visible. A framed abstract painting hangs on the wall to the left of the bathtub.

With Josh, tell your home what you'd like, and it's done.
It's that simple.

OK Josh,
Open the blinds to
40% in the kitchen.

OK Josh,
Play Chopin in the
library upstairs.

OK Josh,
Dim the dining room
lights a bit.
